USE OF RECORDED VIDEO STATEMENTS

Early Years to Preparatory Applications for Academic Year 2021/2022

Due to the limitations COVID-19 has imposed upon us, it is not possible to conduct face-to-face interviews for admission to our school at this time. We therefore may ask you to submit a recorded video statement to be considered with your child's admissions application to aid in our determination of their suitability for our school.

The video recording you submit will be shared with members of the administration and teaching faculty in order to make decisions about your child's admission to the school and for the purposes of providing your child's education if their application is successful.

If your child's application is successful, we will retain your video recording with your admissions application materials for two (2) years. The recording will then be deleted from our admissions records.

If your child's application is not successful, we will retain your application materials and your video recording for two (2) years of this decision being made. These will then be deleted from our admissions records.

When recording your video please ensure that you are mindful about your surroundings to ensure you do not capture the personal data of others without their permission.
