

# Canadian International School of Hong Kong

Head of School

April 20, 2021

Dear CDNIS Community,

I write to share some information concerning the status of the latest COVID-19 related cases in Hong Kong, the potential impact on our community, and the health and safety measures we are reinforcing to keep everyone well.

You may be aware that several visitors to the Harbour City complex in Tsim Sha Tsui, the Centrium Building in Soho, and Cheung Chau Island during April 11 and 12 have tested positive for COVID-19 with a variant strain. Pursuant to the follow-up contact tracing, we have been informed that 9 members of our community, inclusive of parents, students and staff, have visited those locations on those dates. It should be noted that one adult and one student are being deemed close contacts and are now being quarantined at a government quarantine facility as required by the CHP. At the time of this writing, the affected parents, students and staff are reporting negative test results, and the school will continue to closely monitor and follow-up with them.

In an abundance of caution, our facilities team will execute a thorough deep cleaning of our campus this afternoon after students and staff leave and will continue through the night. We will be vigorously reinforcing mask-wearing, social-distancing, hand-washing and all health and safety measures when students return tomorrow. In the interim, our warm wishes of empathy go out to the individuals quarantined and we will look forward to welcoming them back in due course.

We would like to reiterate that the fight against COVID-19 is a whole community effort, and we urge all parties to vigilantly adhere to the government social distancing policies and recommendations to make CDNIS a safe and healthy place for our students and staff.

We are closely monitoring the situation and will inform you immediately should there be any changes.

Warmly,  
謹祝身體健康

Dr. Jane Camblin  
Head of School
