

Canadian International School of Hong Kong

Head of School

March 12, 2021

Dear CDNIS Community,

We have been contacted by several parents in both Lower and Upper divisions of the school who have shared that family members have tested positive for COVID-19 and that the family unit has been designated as close contacts and quarantined. Other families have reported that members of their household or building have tested preliminary positive and that they have opted to go into voluntary quarantine. Similarly, other parents have reported that they have had contact with friends who have frequented some of the gyms currently closed by CHP and are choosing to isolate at home.

I'd like to stress that we have not been contacted by CHP and that no staff have been categorized as close contacts. Furthermore, EDB has not asked us to close our campus. Nevertheless, out of an abundance of caution, we have decided that all grades from EY to Grade 12 will pivot to remote learning next week, from **Monday, March 15 to Friday, March 19**, and take advantage of the empty campus to undergo a thorough deep cleaning and fumigation starting this afternoon while we determine the broader impact on our community, if any.

We have very much appreciated the candour of our families who have shared their current health situation and we all send our very best wishes to them for a speedy return to health. By working together, we will continue to safeguard the health of our community. We will continue to monitor the developing situation in Hong Kong and will keep you updated during the upcoming week as to our face-to-face class resumption plans. In the interim, your Principal will contact you shortly about the remote learning schedule for your child.

We know this news is disappointing, but I am sure you will agree that maintaining the health and safety of our staff and students must be our major priority. Thank you all for your collaboration and understanding.

Best wishes,
祝安康！

Dr. Jane Camblin
